

A half day seminar exploring the use of technology to support, enhance and manage assessment and learning within Apprenticeship training, assessment and qualifications.

Announcing 3aaa to speak at Leeds seminar and Dfe to provide update on latest apprenticeship assessment developments. Full programme on website.

There is an opportunity to encourage the use of flexible digitally enabled assessment tools, these might include virtual reality and other appropriate assessment technologies along with more commonly used online testing systems.

Speakers will address the issues from a range of viewpoints including standards development, assessment development and the provision of suitable assessment delivery systems.

This seminar is for apprenticeship providers, assessment bodies, managers, employers, HR, and technology suppliers.

Speakers include:

Institute for Apprenticeships/DfE
City and Guilds Kineo
Jisc

3aaa
Digital Assess
Calibrand
eCom Scotland

Seminar Chair: Joe Wilson

Speakers and programme subject to confirmation

Fee: £65 + VAT
